 94252330
 Ariana, Tunisia

Business Computing student at Esprit School of Business with hands-on experience in full-stack development, database design, and software engineering. Worked on Java and web development projects involving authentication systems, REST APIs, and user management. Interested in backend development, cybersecurity, and scalable web applications.

Education

École Hannibal

Baccalauréat in Science, *Lycée Mohamed Dachraoui El Menzah 9*

Biomedical Engineering,
Institut supérieur des technologies médicales de Tunis

Business Computing - Business Information System,
Esprit School Of Business

Professional Experience

Full-Stack Development Intern, *HAICA*
06/2026 – 07/2026

Built a full-stack web application with Node.js and Fastify, using Vue 3 for the frontend and MySQL for data storage. I developed authentication and user-management features, created RESTful APIs and integrated them with the frontend, designed and maintained relational database schemas, and implemented role-based access control to manage permissions.

Java Application Development Intern,
Banque de Tunisie et des Emirats
06/2025 – 07/2025

Developed and improved an internal “Mobilisation de Créances” credit management application using Java Swing. Implemented authentication, data validation, and Excel export features with Apache POI. Collaborated with internal users to improve UI/UX and streamline administrative workflows.
